# UCR Campus Safety Committee Charter

## Authorization
Chancellor Timothy P. White

## Administrative Owner
Vice Chancellor, Finance/Business Campus Services, Gretchen Bolar

## Vision
Achieve continuous health and safety performance improvement by fully integrating health and safety philosophy and practices into all campus activities, operations, design and planning.

## Mission
Enhance and maximize safety for students, staff, faculty and visitors on the UCR campus

## Scope
- Study the person/environment/activity interface where potential problems exist or may occur
- Recommend programs, activities and actions to eliminate or minimize existing hazards
- Refer proposals to appropriate departments for follow-up
- Utilize planning, coordination and communication to achieve best results in preventing hazards
- Coordinate the campus response to concerns and issues related to safety

Revised 05/12/2009
Relationship to Other Committees
If an issue brought to the CSC is already addressed by existing committees, the CSC will refer the matter and facilitate a response. It will not attempt to re-create the work of other committees.

Process
Serve as a clearinghouse for concerns, and a forum for developing efficient and effective responses to community issues.

Make reasoned recommendations and decisions regarding campus and UCR community safety;

Develop subcommittees for specialized tasks and projects as necessary and appropriate

Study/Investigate
Assess and study problem areas, accidents and trends, and select and utilize various tools to improve the situation:

Consult
Assure all stakeholders are involved in the process

Advise
Recommend direction for VCA and other decision makers to facilitate safety

Planning processes
Participate in appropriate planning and design processes to achieve goals

Standardization
Standardize design and installation of safety markings such as: Crosswalks, lane dividers, lighting, signage; etc.
