Below are several individuals about whom there may be common societal beliefs. List 2-3 things you think people might assume about each of these individuals. This may not necessarily be things YOU assume, but instead reflects what you think OTHERS might assume.

1. College athlete

2. 52 year old grandfather

3. Obese 24 year old woman

4. Single mother with Food Stamps

5. Young female with a jail record

6. Wheelchair-bound 26 year old man

7. 32 year old male taking teenage boy to movies

Adapted from the Understanding Stereotypes and Biases presentation by Professor Kathleen Montgomery, Ph.D. from the University of California Riverside, Anderson School of Management.
