Procedure No.:

Authorized By: CHIDOZIE B. NZOM Contact No.: (951)827-5118

Issue Date: Review Date: Page Number: 1 of 1

WARNING!

Do not use this machine unless an instructor or shop supervisor has instructed you in the safe use and operation and has authorized you to operate this equipment!

Equipment/Machine:	DRILL PRESS
Make/Model Number:	
Description of Work:	Using a drill press (bench or pedestal).

<u>Potential Hazards</u>: Exposed moving parts and electrical hazard with the potential to cause harm through entanglement, exposure to heat, dust, projectiles and sharp objects.

Safe Work Procedure Checklist:

1. PRE-Operation:

- Task (e.g. Drawings, instructions, specifications etc) is clearly understood.
- Drill bit is tight in chuck and chuck key has been removed.
- Make sure guarding is in place and in good condition.
- Work piece is securely clamped.
- Correct drill speed has been set.
- Where necessary, ensure depth stop for drill has been set or wood to be drilled is rested on scrap.
- Identify ON/OFF switch and emergency stop button (if applicable).

2. DURING Operation:

- Check that drill runs 'true' and does not wobble.
- Keep hands clear of work piece and away from rotating tool.
- Back out frequently to clean and cool the drill bit.
- Turn off machine before belt speeds are changed.

3. POST-Operation:

- Switch off the drill before removing chips and shavings from the drill table.
- Return clean drill bit to drill rack and clamps to their storage area.
- Make sure good housekeeping practices are in place to minimize dust build-up.
