

COVID-19 Disinfecting Guide

Environmental
Health & Safety

Who cleans what?

University Facilities Services

Standard

- Cleaning high-touch contact surfaces
- Dusting and wet-mopping floors
- Removing trash
- Cleaning restrooms
- Cleaning spills
- Vacuuming entryways & high traffic entryways

Enhanced

- Disinfecting and sanitizing areas with electrostatic sprayers
- Expanded airflow & enhanced air filters installed
- Adding hand sanitizer stations in high-traffic areas

Personal Responsibilities

- **Clean personal workspace daily** with soap or detergent
- **Wash hands frequently**, with soap and water for 20 seconds

Request disinfectant supplies, **view** custodial cleaning schedule, and more: <https://facilities.ucr.edu/fs-campus-return-support-information>

When there is a confirmed positive COVID-19 case...

Facilities Services will work with departments/PIs to disinfect areas and equipment after a known positive case, however:

- Facilities Services must **wait 24-hours** until after known case was in location
- If more than 24 hours have passed since known case was in the location, cleaning will take place.
- If **more than 3 days** have passed since known case was in the location, no additional cleaning will take place (per CDC guidelines)

- Building occupants will be notified of the cleaning to stay out of the area
- Room/Building signage will be posted in affected areas
- Entire buildings will not be shut down unless warranted
- Positive case individuals will not be identified

Revised 7/30/2021
