

The following masks and hand sanitizer kits are available through Grainger or Fisher Scientific. These are approved. If you wish to purchase a different brand you may as long as the contents are the same type and quantity. If you need assistance contact ehsochealth@ucr.edu or COVID19@ucr.edu at EH&S.

Which mask is which?

As per the test results, masks are rated numerically, on the barrier performance of the material.

- **Level One:** Low barrier protection. Only for general use, not used for aerosols, spray or fluids.
- **Level Two:** Moderate barrier protection. Use for low to moderate levels of aerosols, spray and/or fluids.
- **Level Three:** Maximum barrier protection. Use for high risk of fluid, spray and/or fluids.
