Temporary Food Facility Permit

UCR registered clubs, organizations, non-university organizations or people that will be selling or giving out food and beverages must have a Temporary Food Facility Permit from Environmental Health and Safety (EH&S). EH&S regulates the food sold at community events on campus to protect health, prevent disease, and promote healthy practices among the public.

Potentially Hazardous Foods: \$10.00

- Disease causing bacteria grow particularly well in foods high in protein such as:
 1. Meats
 2. Poultry
 3. Seafood
 4. Eggs
 5. Dairy products
 6. Cooked vegetables such as beans
 7. Cooked cereal grains such as rice

Non-Potentially Hazardous Foods: \$5.00

- Do not have the potential for rapid bacterial growth and consist primarily of prepackaged food such as
 1. Potato chips
 2. Soda
 3. Candy bars

What do I Need to do to get a Permit?

- Complete an application for a Temporary Food Facility Permit at <https://ehs.ucr.edu/publichealth/food-permit-request> at least 7 days before the event (applications submitted less than a week before the event will not be accepted)
- Attend Food Safety Training offered by EH&S, register at <https://ehs.ucr.edu/publichealth/food-permit-request>
- Upon final approval of your application, EH&S will issue the approved permit the day before the event (permits can be picked up at the EH&S front desk the day before the event)

Visit www.ehs.ucr.edu for additional information or call EH&S at 827-5528 if you have any questions.
